The apparently simple appeal of the Natura Collection tells the story of understated elegance that can be perceived in the purity of the lines, the precious details and the successful combination of heterogeneous materials. In the dining room, concrete and abstract as well as tangible and intangible shapes co-exist in a single space, where each unit, from the care to details to the refined balance between colours and shapes reveal the strong but muted philosophy of the brand: geometric patterns leaving enough space to customization. The living room has a significant place in human life. Having a wide range of furniture choices, people are made to be comfortable and useful in a manner based on their use. We need a sofa set which is always relaxed, comfortable, should be durable and should meet the value. Icon offers living spaces where every detail is meticulously planned for the comfort of life, where unnecessary items are not included and disorder is not included in your daily life.

PRAG COLLECTION

// dining room // sofa set //

Home for us is a safe haven and a comfort zone. A place to live with our families and pets and enjoy with friends. A place to build memories as well as a way to build future wealth. A place where we can truly just be ourselves. Home is a feeling of belonging, where the heart feels comfortable with all its surroundings. Home for us means total acceptance. This does not necessarily have to be the birthplace of a person. It is where you feel secure and a place you always want to go back to or stay for long periods without ever being bored. It's where you don't have to be perfect. You can put on your pyjamas and watching your favourite TV shows.

It's someone is there for you. "Home" means different things to different people, but at its heart, it means the same thing: that soft place to land that supports us, our shelter
